Buddy Power Tables
Specification Sheet

Designed by Henry Gurney

Buddy Power Tables

4 weeks

5 year warranty

Designed by Henry Gurney

'Buddy up' with the perfect table for your working style by choosing the new Buddy Power Table collection from Henry Gurney.

Special top shapes and table heights have been designed to complement Ocee's extensive modular seating offering, including Skyline, HenRay and the new Hilly collection. Dining and poseur height tables complete the collection to offer a full suite of integrated power tables.

It is simple to power up with the Buddy Tables' elegant integrated cable management system. The central column and prepared 80 mm hole offers the ability to add power to all table heights and sizes.

There are three heights, six tops, power, data and colour options all designed to enable you to create your perfect working Buddy.

Features

- Central column provides clean cable management system
- Prepared central 80mm hole to accept Pluto or Pixel unit
- Three height options: soft seating height, dining height, and poseur height
- Four table top shapes available with a selection of sizes
- Metal plate four star base
- 18mm MFMDF top with chamfered edge detail
- Feet to allow cables clear access beneath the base
- Other colour tops available (price and lead time on application)
- Nano laminate table tops available (price and lead time on application)
