

## Honeycomb

Multi-use table

When we're not sitting behind our desk, we are in the car or in a meeting, always in a sitting position. But it is actually very important for our creativity, concentration and productivity to alternate between sitting and standing.

Switching between sitting and standing while working creates more variation in the working posture throughout the day.

This leads to less discomfort within the back, neck and shoulders compared to only perform sedentary work a regular table (Choi, 2010; Rabbit et al, 2008; Hedge and Ray, 2004; Karlqvist, 1998).

### Flexible, multi-functional & cordless

If a business wants to make the most of agile working, the working environment also needs to be flexible in design. This means organisations need to create different office spaces with facilities that suit the activities. For example, scrum event rooms, team spots, a lounge setting and quiet spaces. We developed the Honeycomb with this in mind. A multi-functional, flexible sit-stand table.

## Advantages of the Honeycomb

### Multi-functional

The table is suitable for a variety of uses. Its 90 cm diameter allows you to easily move the table around to create any setup of your choice: meeting, seminar, lunch or drinks. No problem at all - this table is suitable for all events.

### Easy

The table height can easily be adjusted. Use the button in the centre of the table top to create heights from 60.5 cm to 126.5 cm and everything in between.

### Mobile

The Honeycomb can be moved around the space by using the battery, which has a led indicator to display the battery charge status. When the battery is running low, an acoustic alarm sounds.

### Shape

The Honeycomb is named after its shape, which in itself makes it a remarkable table, but it also makes it suitable for modular use.

### Battery

1 fully charged battery allows you to adjust the height for up to 85 times, without the need for cables attached to the table.

### Setups

Combining several tables allows you to create a variety of setups and shapes.

## Knowledge Center

Sitting, everyone does it, everyone has an opinion about it and virtually everyone uses something to sit on. And there are plenty of seating options to choose from, from office chairs, stools and balls to combined sit/stand solutions.

Some are a visual promise of ultimate sitting comfort, while others...

## Specifications

Width	900 mm
Height	605 mm
Depth	900 mm
Weight	57.5 kg
Product code:	BNEHCT (Multiple versions)
