

TCG717 rolling laptop bag

BAKKER ELKHUIZEN

Work Smart - Feel Good

An efficient combination of laptop case and travel trolley

Durable, compact, and professional

Carrying too much weight with our hands and arms is not good for our posture and can end up causing problems down the line. This is why our assortment includes smart cases and trolleys.

This versatile trolley safely stores a laptop up to 17.3", with room to spare if you're travelling.

We advise not carrying bags weighing more than 4 to 6.4 kg with the hand. Factors in this are distance, frequency and gender.

Versatile: suitable to transport both your personal and your business items.

Practical: multiple compartments to properly store your belongings separately.

Large: this case fits laptops up to 17.3".

Materials: soft, sturdy materials and a solid telescope arm.

Ergonomic: the telescope arm helps you easily transport the laptop and accessories.

Width	455 mm
