

# S-board 840 Design Numeric

numeric keyboard including calculator

For users who are intensely involved in data entry

The design of this separate numeric part fits the S-Board 840 compact keyboard. The S-board 840 Numeric is suitable for users who work intensively with data input.

This separate numeric addition has 26 different keys as well as a calculator function.

A compact keyboard does not have a numeric pad. For this reason, the mouse can be placed closer to the keyboard. Research has shown that 90% of keyboard users seldom if ever use the numeric pad. Working with a compact keyboard results in greater comfort because it reduces the reaching distance to the mouse (Cook, C., et al., 1998). This puts less strain on the shoulder and forearm.

**Design fits:** with the S-board 840 compact keyboard.

**Including:** hand-held calculator functionality.

**Smart:** extendable USB cable.

**Quality:** comfortable typing (shear mechanism instead of membranes).

**Unique:** 26 different keys on one number pad.

**Connection:** USB.
