## ferro industrial range

Utilising the raw aesthetic detail of the materials, Ferro emphasises natural textures and the beauty of the manufacturing process to create visually striking furniture. According to Engineering Manager Chris Raby: “Ferro is a homage to our manufacturing heritage”, showcasing over 40 years of designing and manufacturing high quality, highly finished office furniture. “Ferro is about expressing the materials and construction methods,” Chris explains. “By leaving the materials raw, with exposed welding and a clear lacquered finish, we have given Ferro an organic, natural feel”.

Featuring a premium high-pressure laminate finish option, Ferro worktops have a natural, textured feel that runs throughout the collection. With clear lacquer finishes emphasising raw construction, every Ferro product is unique, exhibiting both the natural texture of the materials, and expert craftsmanship put into creating each piece. Ferro is a truly unique range from Flexiform.

## storage

Our Ferro storage range has an extensive selection of personal storage, side filers, hinged doors and lockers. All storage doors are finished in our standard clear lacquer. By the nature of this product, each door and panel are unique. A full range of storage components are available.
