Olé is a range of wooden shell chairs designed for use in either a workplace or educational setting. Stylish and adaptable, Olé seating features an ergonomically supportive shell seat with lip arms and distinctive holes in the sides.

FEATURES & BENEFITS

- Wooden shell chair for informal meeting areas, breakout areas, cafés, canteens, quiet working and collaborative workspaces.
- Choice of bases; chrome 4 leg chair with foot levellers, chrome skid base with clear glides, polished aluminium raised 4 star base, polished aluminium 4 star base with feet levellers and swivel mechanism or polished aluminium 5 star base with castors.
- Ergonomically shaped shell chair with lip armrests.
- Trivalent chromium (tri-chrome) plating provides added protection extending the product lifecycle.
- Choice of 3 wood finishes; white oak, natural and wenge.
- Optional upholstered seat pads in a large range of fabrics.
- Tested to BS EN 16139:2013.
- Olé mono-shell is designed to twin with Olé wood, giving continuity throughout the building.

olé

An adaptable mono-shell chair range suitable for all zones within the workplace or education environment from informal meeting areas to quiet working, collaborative spaces and breakout areas. The Olé range features an ergonomically supportive shell seat with lip arms and distinctive holes in the side, and is available in 7 plastic colours to suit any interior design scheme.

4 leg frame, rod skid base, 4 star base with a swivel mechanism, and a 5 star base with castors are all base options to make the Olé range truly versatile. Choose a 4 leg frame for canteens and café areas, or a 5 star base with castors for collaborative zones and quiet working booths. The Olé chair is also available with a CMHR foam seat pad to maximise comfort.

olémono-shell

The Olé mono-shell chair is distinctively designed to hug and support the body. With a wide range of bases and colours, the range is truly adaptable to its environment.
