

# PARQ

ParQ's clever design makes this sit/stand desk completely unique. A clever mechanism fully compensates the tilt adjustment, facilitating the dynamic design without compromising on stability. The table top moves completely parallel to the optional screen.

The integration of this design allows for optimal leg room, with the tapered frame positioned really far to the back. The proportional base plate provides stability, links duo workstations to benches and ensures a safe distance to other desks, cabinets or other fixed objects.

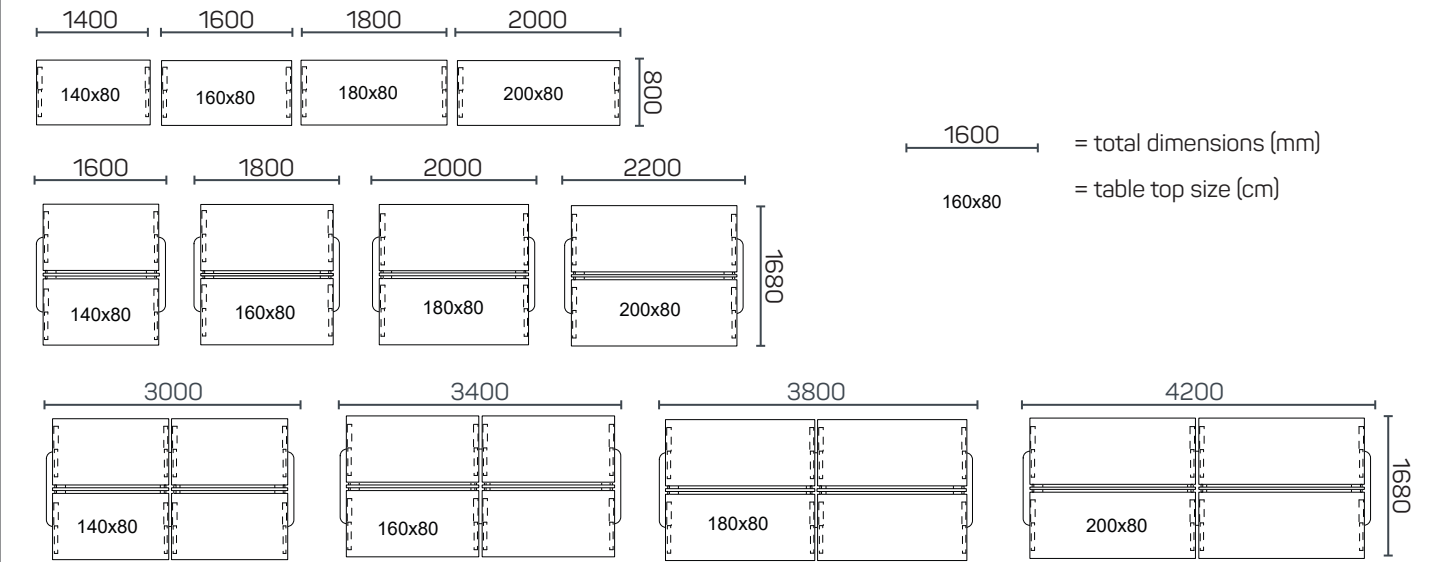

## Features

- Unique design - despite angled position of the leg, the table top adjusts vertically in a straight line
- Swift tool-less (dis-)assembly of table top, frame and legs
- Ergonomic design - the tapered placement of the legs offers optimal legroom
- ParQ Duo workstations are placed on a stable base plate (945 x 250 mm)
- A desk range with extensive dimensions
- Modular system structure
- Workstations are delivered partly assembled
- On project basis in further consultation
- Base plate and crossbeam can be made in a contrasting colour (both in the same colour) (see fig. 1)
- Accessories can be retrofitted
- Dimensions increase in length +200 mm

## Accessories

- Extensive range of horizontal and vertical cabling options - contact your Area Sales Manager for more information
- Extensive power options such as panel mounted and flush mounted sockets
- Adjustable CPU holder
- Front modesty panel
- Upholstered (acoustic Re-felt) dividing screens from the InBetween range

## Materials: Table Tops

25mm MFC  
25mm HPL

All table tops come with a seamless LaserTec-PP- edge finish on all finishes from the 'Wood Panels' Core collection. Finishes from the Trend collection come with a 3mm ABS edge finish in a matching colour as standard.

## Materials: Frame

- Manufactured from a high-grade calibrated steel, finished with an impact-resistant powder coating
- Top crossbar epoxied in black
- Base plate and crossbeam optionally available in contrasting colour; in accordance with colour chart "Epoxy and lacquer - Core collection" and "Epoxy and lacquer Trend collection"

## Options

- Table Top - finishes in accordance with the 'Wood Panels' colour chart
- Metal legs & frame - epoxied in accordance with the 'Metal Components' colour chart

## Height adjustment options

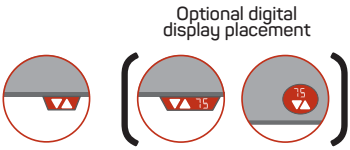

### Sit-Sit: 650-890 mm

- Height is adjustable via: crank handle underneath top, seating side right

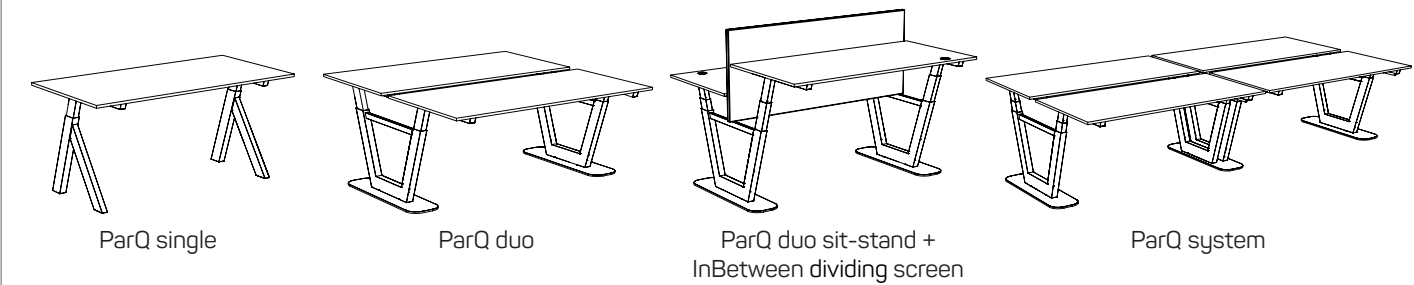

### Sit-Stand: 650-1300 mm

- Height electrically adjustable via the Up/down key underneath top, seating side right
- Optional: adjust height via a display underneath or in the top, seating side right
